## Excellent-Quality Roof Deck Protection Can Protect And Beautify At The Same Time!

Shingle-Mate® quality roof deck protection provides an extra layer of protection between your shingles and your roof deck. It helps prevent wind-driven rain (or water from other sources) from infiltrating under your shingles and causing damage to your roof structure or the inside of your home. It will also:

- Lie flatter than conventional organic felt and reduce “telegraphing” wrinkles for a more uniform look.

Shingle-Mate® Roof Deck Protection is a key part of the GAF Lifetime Roofing System\*, and has even earned the prestigious Good Housekeeping Seal (applicable in U.S. only; see reverse).

## Roof Deck Protection

### Homeowner's Best Choice

- **Great Look...** Fiberglass reinforced, so it lies flatter than conventional organic felt for a more uniform look.
- **Reliable Protection...** Eliminates the need to slit bubbled felt, which may be required when using conventional organic felt (this can compromise the integrity of your roofing system).
- **Peace Of Mind...** Eligible for a Lifetime Ltd. warranty when installed on Lifetime Shingle roofs.\*

### Professional's Best Choice

- **Avoid Downtime...** Rolls out quicker than organic felts.
- **Reduces Call-backs...** Caused by telegraphing of wrinkles that can occur with conventional organic felt.
- **Easy To Use...** Lighter and easier to handle than #30 felt.
- **Versatile...** Can be applied over plywood, wood plank, and all other approved decks.<sup>†</sup>
- **Great Value...** Competitively priced with #30 felt on a per square basis (pricing varies by market).

NOTE: Shingle-Mate® Roof Deck Protection must NOT be left exposed to moisture or precipitation.

Conventional organic felts can telegraph wrinkles through the roof shingles.
