Install Peace Of Mind

Whether you install the ultra-dimensional Timberline Ultra HD® Shingles or the ever-popular Timberline HD® Shingles, you'll be getting all the benefits that only a genuine Timberline® roof can provide!

Weathered Wood

Install To **Protect.**

When you install GAF Timberline® High Definition® Shingles with **Advanced Protection®** Shingle Technology, you're getting the very best combination of weight and performance that modern manufacturing technology can deliver. In fact, you won't find a shingle that surpasses Timberline® on:

- ✔ Toughness
- ✔ Wind uplift resistance
- ✔ Flexibility
- ✔ Fire resistance

That's why every Timberline® High Definition® Shingle comes with GAF's transferable Lifetime ltd. warranty*—for your peace of mind!—plus the backing of the Good Housekeeping Seal.**

*See *GAF Shingle & Accessory Ltd. Warranty* for complete coverage and restrictions. The word "Lifetime" refers to the length of coverage provided by the *GAF Shingle & Accessory Ltd. Warranty* and means as long as the original individual owner(s) of a single-family detached residence [or the second owner(s) in certain circumstances] owns the property where the shingles are installed. For owners/structures not meeting the above criteria, Lifetime coverage is not applicable.

**Timberline® High Definition® Shingles have earned the prestigious Good Housekeeping Seal, which means that Good Housekeeping stands behind these products. (Refer to Good Housekeeping Magazine for its consumer protection policy. Applicable in U.S. only.)

Install To **Invest.**

Your roof can represent up to 40% of your home's "curb appeal." Timberline® High Definition® Shingles not only protect your most valuable asset but also beautify your home for years to come—and add to its resale value.

Recently, an independent research firm surveyed U.S. homeowners about the brand of architectural shingles they preferred based on appearance. The result: **more homeowners preferred the look of Timberline® High Definition® Shingles** to the other leading brands.[1]

In fact, according to a recent survey conducted by the National Association of REALTORS®, you can increase the value of your home by an average of 5% with a new Timberline® roof![2]

So why settle for anything less than a genuine Timberline® roof?

[1]Based on a 2014 survey of U.S. homeowners commissioned by GAF comparing the appearance of two popular Timberline® High Definition® Shingle colors to the comparable colors of other leading brands.

[2]2013 National Association of REALTORS® survey commissioned by GAF of REALTOR® Appraisers and Non-Appraisers in the U.S.; response based on REALTOR® Appraisers that have had professional experience buying or selling a home with Timberline® Shingles in the three years preceding the survey and felt they could provide an estimated value increase for a home with a Timberline® roof as compared to a home with a basic three-tab shingle roof.

NOTE: It is difficult to reproduce the color clarity and actual color blends of these products. Before selecting your color, please ask to see several full-size shingles.

Install To **Impress.**

Timberline® High Definition® Shingles are unlike any others, thanks to our proprietary shadow bands. Each shadow band is applied using a sophisticated, computer-controlled "feathering" technique. When combined with our randomly blended top layer, it results in a shingle with exceptional depth and dimension—**and a striking look unmatched by any other brand.**

But don't just take our word for it. See for yourself. When you compare Timberline® High Definition® Shingles to typical architectural shingles, it's easy to see why they'll look sharper and more beautiful on your roof—while enhancing the resale value of your home.

Whatever you're looking for, there's a Timberline® Shingle to fit your taste and your budget.

Here's What Female Homeowners Have To Say...

GAF recently received the Women's Choice Award for being the brand that is a "gold standard when it comes to meeting **high standards of quality and service**," as rated by female homeowners in the U.S.

Weathered Wood

Weathered Wood is truly the perfect neutral color. Straddling the line between warm and cool tones, this shade complements a broad range of hues—especially clay, the current most popular color for home exteriors. Blending beautifully with nature, this color also works well paired with sage, cream, ivory, and all manner of beiges.

"We love our roof! Our area receives quite a bit of wind, rain, and storms in the spring. It is wonderful to no longer be concerned with shingles flying off the house."

—Tracy Christie, Bloomington, IN

NOTE: It is difficult to reproduce the color clarity and actual color blends of these products. Before selecting your color, please ask to see several full-size shingles.

SLATE

Slate is a cool gray with a beautiful green undertone—exactly like real slate. This shade coordinates well with both grays and greens on the cool side as well as with white, cream, and ivory exteriors. A roof done in Slate will add a warm and inviting feel to any home.

"The High Definition® (Timberline®) Shingles really added to the look of the house. Knowing the product is backed by a company like GAF is comforting."

—David Cusumano, Collegeville, PA

NOTE: It is difficult to reproduce the color clarity and actual color blends of these products. Before selecting your color, please ask to see several full-size shingles.

Barkwood

Barkwood is a popular neutral brown color that coordinates well with most other warm colors, such as beige, taupe, cream, gold, and yellow. Its nature-based tone emulates wood, fitting in well with natural surroundings. You'll love the way this color enhances the overall tones of your house.

"I absolutely love the look of my new roof and how it stands out among my neighbors. They have begun to follow my lead and now our little subdivision is being transformed."

—Joann Steers, Arlington, TX

NOTE: It is difficult to reproduce the color clarity and actual color blends of these products. Before selecting your color, please ask to see several full-size shingles.

Charcoal

Charcoal is the most neutral of all shades, making it versatile enough to use on your roof regardless of your home's style. This cool-toned color works wonderfully with home exteriors that feature blues, grays, or whites; you'll also find it pairs well with yellow, gold, sage, or green.

"I am the toughest customer you will ever find anywhere. Outstanding is an understatement."

—Patrice McDonough, Des Plaines, IL

NOTE: It is difficult to reproduce the color clarity and actual color blends of these products. Before selecting your color, please ask to see several full-size shingles.

Hickory

Hickory is an inviting brown shade that has the added element of a red undertone, giving it a rich look. It's an excellent companion to both brick and stone homes that have shades of red or terra cotta. You'll also love how this color looks on homes with warm neutrals of brown and beige as well as with yellows and golds.

"It looks GREAT! My wife loves the color, and I love the Lifetime ltd. warranty."

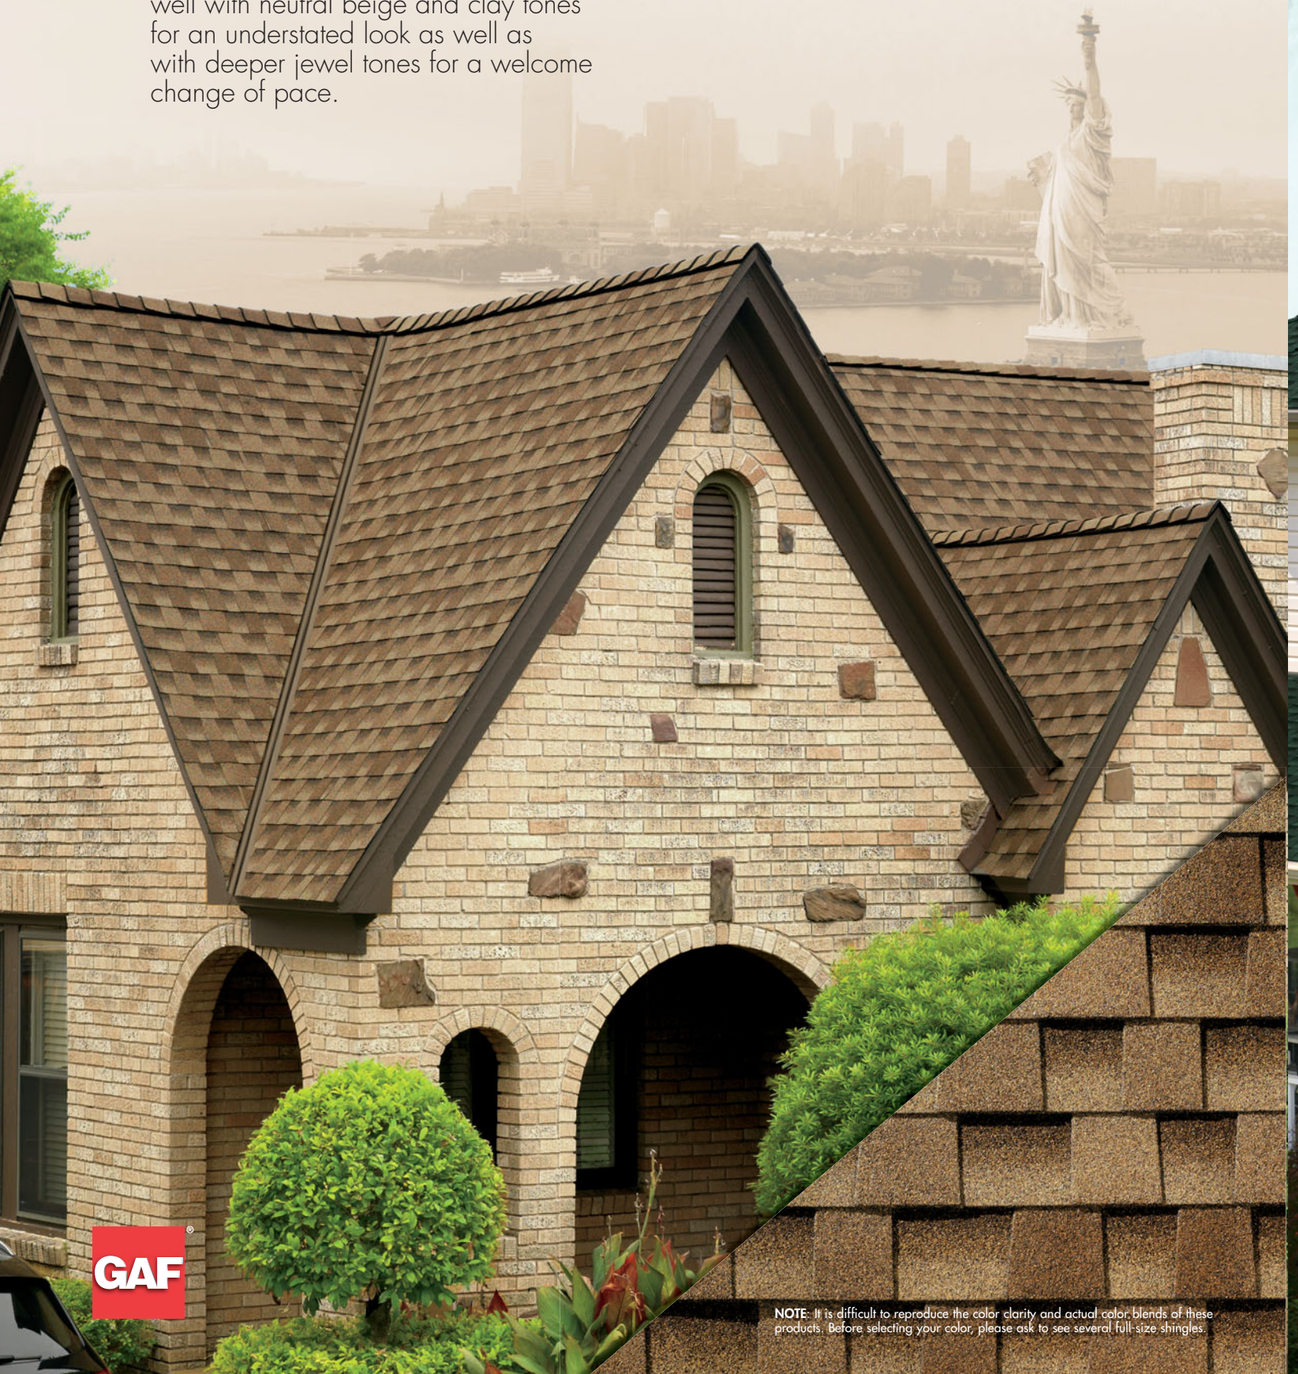

—Kevin McGrath, Dawsonville, GA

NOTE: It is difficult to repraduce the color clarity and actual color blends of these products. Before selecting your color, please ask to see several full-size shingles.

SHAKEWOOD

Shakewood is an appealing blend of browns, tans, and gold providing a warm radiant color. It pairs equally well with neutral beige and clay tones for an understated look as well as with deeper jewel tones for a welcome change of pace.

NOTE: It is difficult to reproduce the color clarity and actual color blends of these products. Before selecting your color, please ask to see several full-size shingles.

HUNTER GREEN

Hunter Green is a rich color with dramatic undertones that makes you take notice. At once welcoming and stately, this striking color evokes a sense of security as it integrates beautifully with its surroundings.

Pewter Gray (Regional)

Pewter Gray provides dramatic presence when paired with contemporary exterior color palettes, as well as with stucco or brick facades. This elegant color is at ease in any situation, giving you the freedom to reimagine your home in another place and time.

NOTE: It is difficult to reproduce the color clarity and actual color blends of these products. Before selecting your color, please ask to see several full-size shingles.

Birchwood (Regional)

Birchwood is a soft neutral shade of gray, which flatters homes that feature clean lines. Its subtle tints harmonize beautifully with city or suburban environments.

Pewter Gray (Regional)

Pewter Gray provides dramatic presence when paired with contemporary exterior color palettes, as well as with stucco or brick facades. This elegant color is at ease in any situation, giving you the freedom to reimagine your home in another place and time.

Color&Style
Expert Advice By Patricia Verlodt

"Color & style go hand in hand when considering what shingle to use on your roof"

The color and style of your shingle are important! After all, your roof represents up to 40% of your home's curb appeal, so it will always have a big impact on your home's overall look.

When you look at home exterior color trends, you'll notice that they're typically much more muted than the color trends you see in fashion; for example, if bold greens are in the fashion magazines, you might see the introduction of new home exterior palettes in warm, earthy green tones. Why? Because bold green might not be "in" two years from now (likely not), but you will still have the same roof. Color choices in exteriors are long-term decisions, so make sure the palette that you select is not only one that fits your personality and taste today but also one that you'll enjoy ten years down the road.

- Observe how much of your roof is visible from the street or common view. A larger roof looks best in neutral tones. If the roof angle is normal or slight, you can use more colorful shingles or interesting patterns.
- Use colors in the same color family as the body of your house for a simple, non-accented combination. An example is a gray roof on a gray house, whether light or dark gray. Trim in white or black will keep it understated.
- Use bright colors to make a design statement. For example, a green roof on a red brick house or a red roof on a gray house.
- And remember, follow your instinct. Choose the color and style that make you comfortable. After all, you're the one looking at it every time you come home!

When it comes to the style of your shingle, it's important to think about the overall look and shape of your home. If your roof has a low pitch, the shingle profile will be more important than the shape; for a roof with a steep pitch, a unique design or color pattern may be more important. If you have a large roof surface, you don't want the color pattern of your shingle to be too busy (it can be overwhelming!). On the other hand, a larger surface gives you a great opportunity to really change your home's look. So, make sure the design and color you select integrate extremely well with the rest of your house.

- Choose a shingle that complements your home's architectural style. For example, for a Colonial home, select a shingle with a clean line that complements the home's design. A Victorian house could take on a more colorful or complex design.
- The use of colors and textures can create a comfortable feel for your residence. For example, if focusing on the exterior of a Shingle Style home, adding color and textured design elements make the home much more approachable.

Patricia Verlodt has been responsible for coloring products for many Fortune 500 companies; she has a specialty in exterior products. Her work has been featured in major newspapers as well as in many magazines such as *Real Simple, Better Homes and Gardens*, and *Forbes*.
